Schools will select their top three entries and then send these to Making Space. The overall top three entries will receive an arty prize and have their work featured in the summer edition of the Primary Link Magazine. If you require any further details please see Miss Burgess.

If you are visiting zoos or theme parks over the Easter period, we would be very grateful if you could bring in maps for us to use in school. The children love looking at them and it helps them to develop their spatial and Geographical skills. Many thanks, from Mrs Redding.

Kuma News

First and foremost, a HUGE well done to all of the children in year six this week for taking part in their mock SATs tests. They have been focused and determined to do well, and as the real tests get ever closer, they are showing all of the amazing signs of mature, independent children. Myself and Miss Kingdon could not be prouder of them and all of their efforts.

But it's not all tests and exams. Last week we were able to get out of the classroom and explore the world of the Tudors with a visit to Weald and Downland Museum. Here the children were able to learn all about the remedies the Tudors believed cured illness, find out a little more about Shakespeare, and even take part in performing a section of The Tempest!
