Mars News

In year 2, we have been visiting the great outdoors! We enjoyed a whole afternoon of science; we explored the habitats of the pond and the wooded area. In the pond we found newts, tadpoles, water boatman and beetles. Thankfully we did not find any crocodiles!

In the wooded area, we saw a squirrel, birds and lots of minibeasts. We discussed what creatures' habitats are like and how they are suited to living there.

A fun time was had by all.
