

**Barncroft Primary School**

**Believe Achieve Succeed**

# Vision Statement Art

At Barncroft Primary we believe that art is central to a well- rounded education. Art is carefully integrated into topics in order to enhance children's enjoyment and enrich the topic. Children should also have the opportunity to experiment and create within the Art curriculum. This helps to raise self- esteem and allows children the opportunity to express individual feelings and ideas.

Children should have the opportunity to develop particular skills and knowledge across the six aspects of Art and study the work of well- known artists, to include the body of work of famous artists from the past and present.
