

Barncroft Primary School

Believe Achieve Succeed

Subject Leader's Vision Statement

At Barncroft we aim to provide our children with a variety of DT opportunities and continue to raise standards by:

- Children having the opportunity to pursue a range of design projects over each academic year which cover each of the mediums through which DT is explored and taught.
- Teachers using 'Projects on a Page' to ensure that we cover the full curriculum efficiently.
- Ensuring that the 6 principles of DT are at the core of all DT learning.
- Enabling children to be skilled and confident in their use of a wide range of age appropriate tools and materials.
- Encouraging children to be confident when planning design projects and exploring ways of doing things, evaluating their ideas and modifying their plans accordingly.
- Teachers using a range of assessment strategies to gather evidence of children's understanding and ability.
- Children engaging with their progress by conferencing with their teacher to identify what they have achieved and what their next steps are.
- Children making links between ideas, using models to explore and extend their ideas, and apply knowledge and understanding of design and technological ideas to familiar phenomena and everyday things.
