

Barncroft Primary School

Believe Achieve Succeed

Geography Subject Leader's Vision Statement

We believe that *Geography* provides all children with the ability to delve deeper and make connections to find out about our world. We aim to inspire in our children a curiosity and fascination about the world and its people which will stay with them for the rest of their lives.

Our world is ever-changing and *Geographical* enquiry needs to reflect the **dynamic** nature of people and places, with exploration being based on 'the **real**' and **relevant**, wherever possible.

Children will have access to a wide range of resources to aid them in their discovery. *Geography* will help them learn about how people influence and interact with the physical and human environment.

Our vision is that Barncroft pupils leave with an increased confidence and understanding of *Geographical* facts and vocabulary, as well as the skills to explore their world and become responsible and valued citizens in our society.
