

Barncroft Primary School

Believe Achieve Succeed

Philosophy Vision Statement

Here at Barncroft Primary school we want to teach children the skills they will need to become well-balanced, responsible, successful adults.

By teaching them the 4Cs, see below, it will help them to achieve this.

Collaborative

If children are able to work collaboratively they will be able to work with other people in harmony. They will learn tolerance, respect and compromise.

Caring

If children are taught to be caring towards each other they will learn respect and empathy.

Critical

If children are able to think critically, it will enable them to constantly evaluate their work and behaviours. It will also help them to make links between lessons, subjects and life events.

Creative

If children are able to think creatively, it will enable them to tackle situations in a variety of ways, some of which others may not have thought of.
